- Up to 8.0 GPM, 3000 PSI
- Rugged Belt-Driven Pump with 7-year Warranty
- Lancom Wireless Remote Control Option
- Electronic Ignition
- LP Conversion Option

■ Top-of-the-line **Tuff-Skin Hose**, with 24-inch hose guard for burst protection and swivel swedge fitting for twist-free operation, has seven times the abrasion resistance as other high-pressure hoses (hose reel is optional).

■ Many **Safety Features**, including a rupture disk and thermal pump protector to prevent the buildup of excessive pressures or heat.

■ High-efficiency burner has **Electronic Ignition** standard on all models, eliminating the hassle of having to constantly light the pilot flame.

■ **Hinged Side** allows for quick access to components without removing the cabinet.

■ Industrial-duty **Electric Motor** with multiple voltage options and thermal overload protection.

■ Four quick-couple **Nozzles** are made of hardened stainless steel and mounted for ready access.

■ Extra-durable **Heating Coil** made of leak-free, cold-rolled, Schedule 80 steel pipe with five-year warranty.

■ Rugged **Steel Frame** painted with an epoxy powder-coat finish for all-weather protection (also available in stainless steel option).

■ Helpful **Tri-Lingual Labels** with operating instructions in English, Spanish and French for owner and operator protection.

■ Our patented **Cool-Bypass\*** system keeps pump water temperature low while in bypass mode.

■ Overload protected **Control Switches** are conveniently located for ease of operation.

■ Brass, anti-syphon **Detergent Metering Valve** locks out air and dispenses precise amount of cleaning agent.

■ Industrial-grade, dual belt-driven **High-Pressure Pump** has a tri-plex, forged brass head with a 7-year limited warranty and U-seals for greater pump protection.

■ Optional **LanCom Wireless Remote** (see back side) controls the pump, burner and detergent up to 300 feet away line of sight.

■ Rust-free, polyethylene **Float Tank** with stainless steel inlet filter and low-turbulence float valve allows for high-pressure application of detergent.

■ **Consolidated Plumbing** has put both the water supply inlet and quick-couple, high-pressure outlet next to each other for ease of installation.

■ Insulated, fatigue-free **Trigger Gun** with chrome-plated, dual-lance **Variable Pressure Wand** make for easy cleaning and adjusting the pressure while washing.

■ Cast-iron, bushed-bore **Pulleys** with two-bolt adjustment means long life and easy maintenance on the high-pressure pump.

## WHY CHOOSE THE VHG

The VHG, with its fuel-efficient burner and vertical hot water coil, is the most compact natural gas hot water pressure washer on the market today, yet is packed with quality.

**COMPACT:** The VHG is only 24-inches wide, 53-inches long and stands 49-inches high, an amazingly small footprint for all of the features and quality it possesses. Plus there are larger models for the bigger cleaning jobs.

**INNOVATION:** LanCom, our exclusive wireless remote operation of a pressure washer, is available for factory installation on time delay equipped models!

**QUALITY:** The VHG boasts many of the industrial-grade components and safety features that have set apart our pressure washers as the most dependable and safe in the industry.

For instance, the VHG burner comes with standard electronic ignition on all models. The heat is retained in carefully crafted heating coils made of leak-free, cold-rolled, half-inch, Schedule 80 steel pipe. Auto Start/Stop, another standard on the VHG, will protect the unit during unattended operation by shutting down the pump during non-use. Our patented Cool-Bypass System\* circulates water to prevent overheating the pump on the VHG or contaminating the water tank detergent.
